

CITY OF CAMAS  
DOWNTOWN COMMERCIAL PARKING MAP

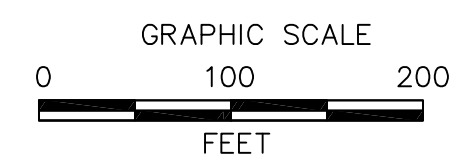

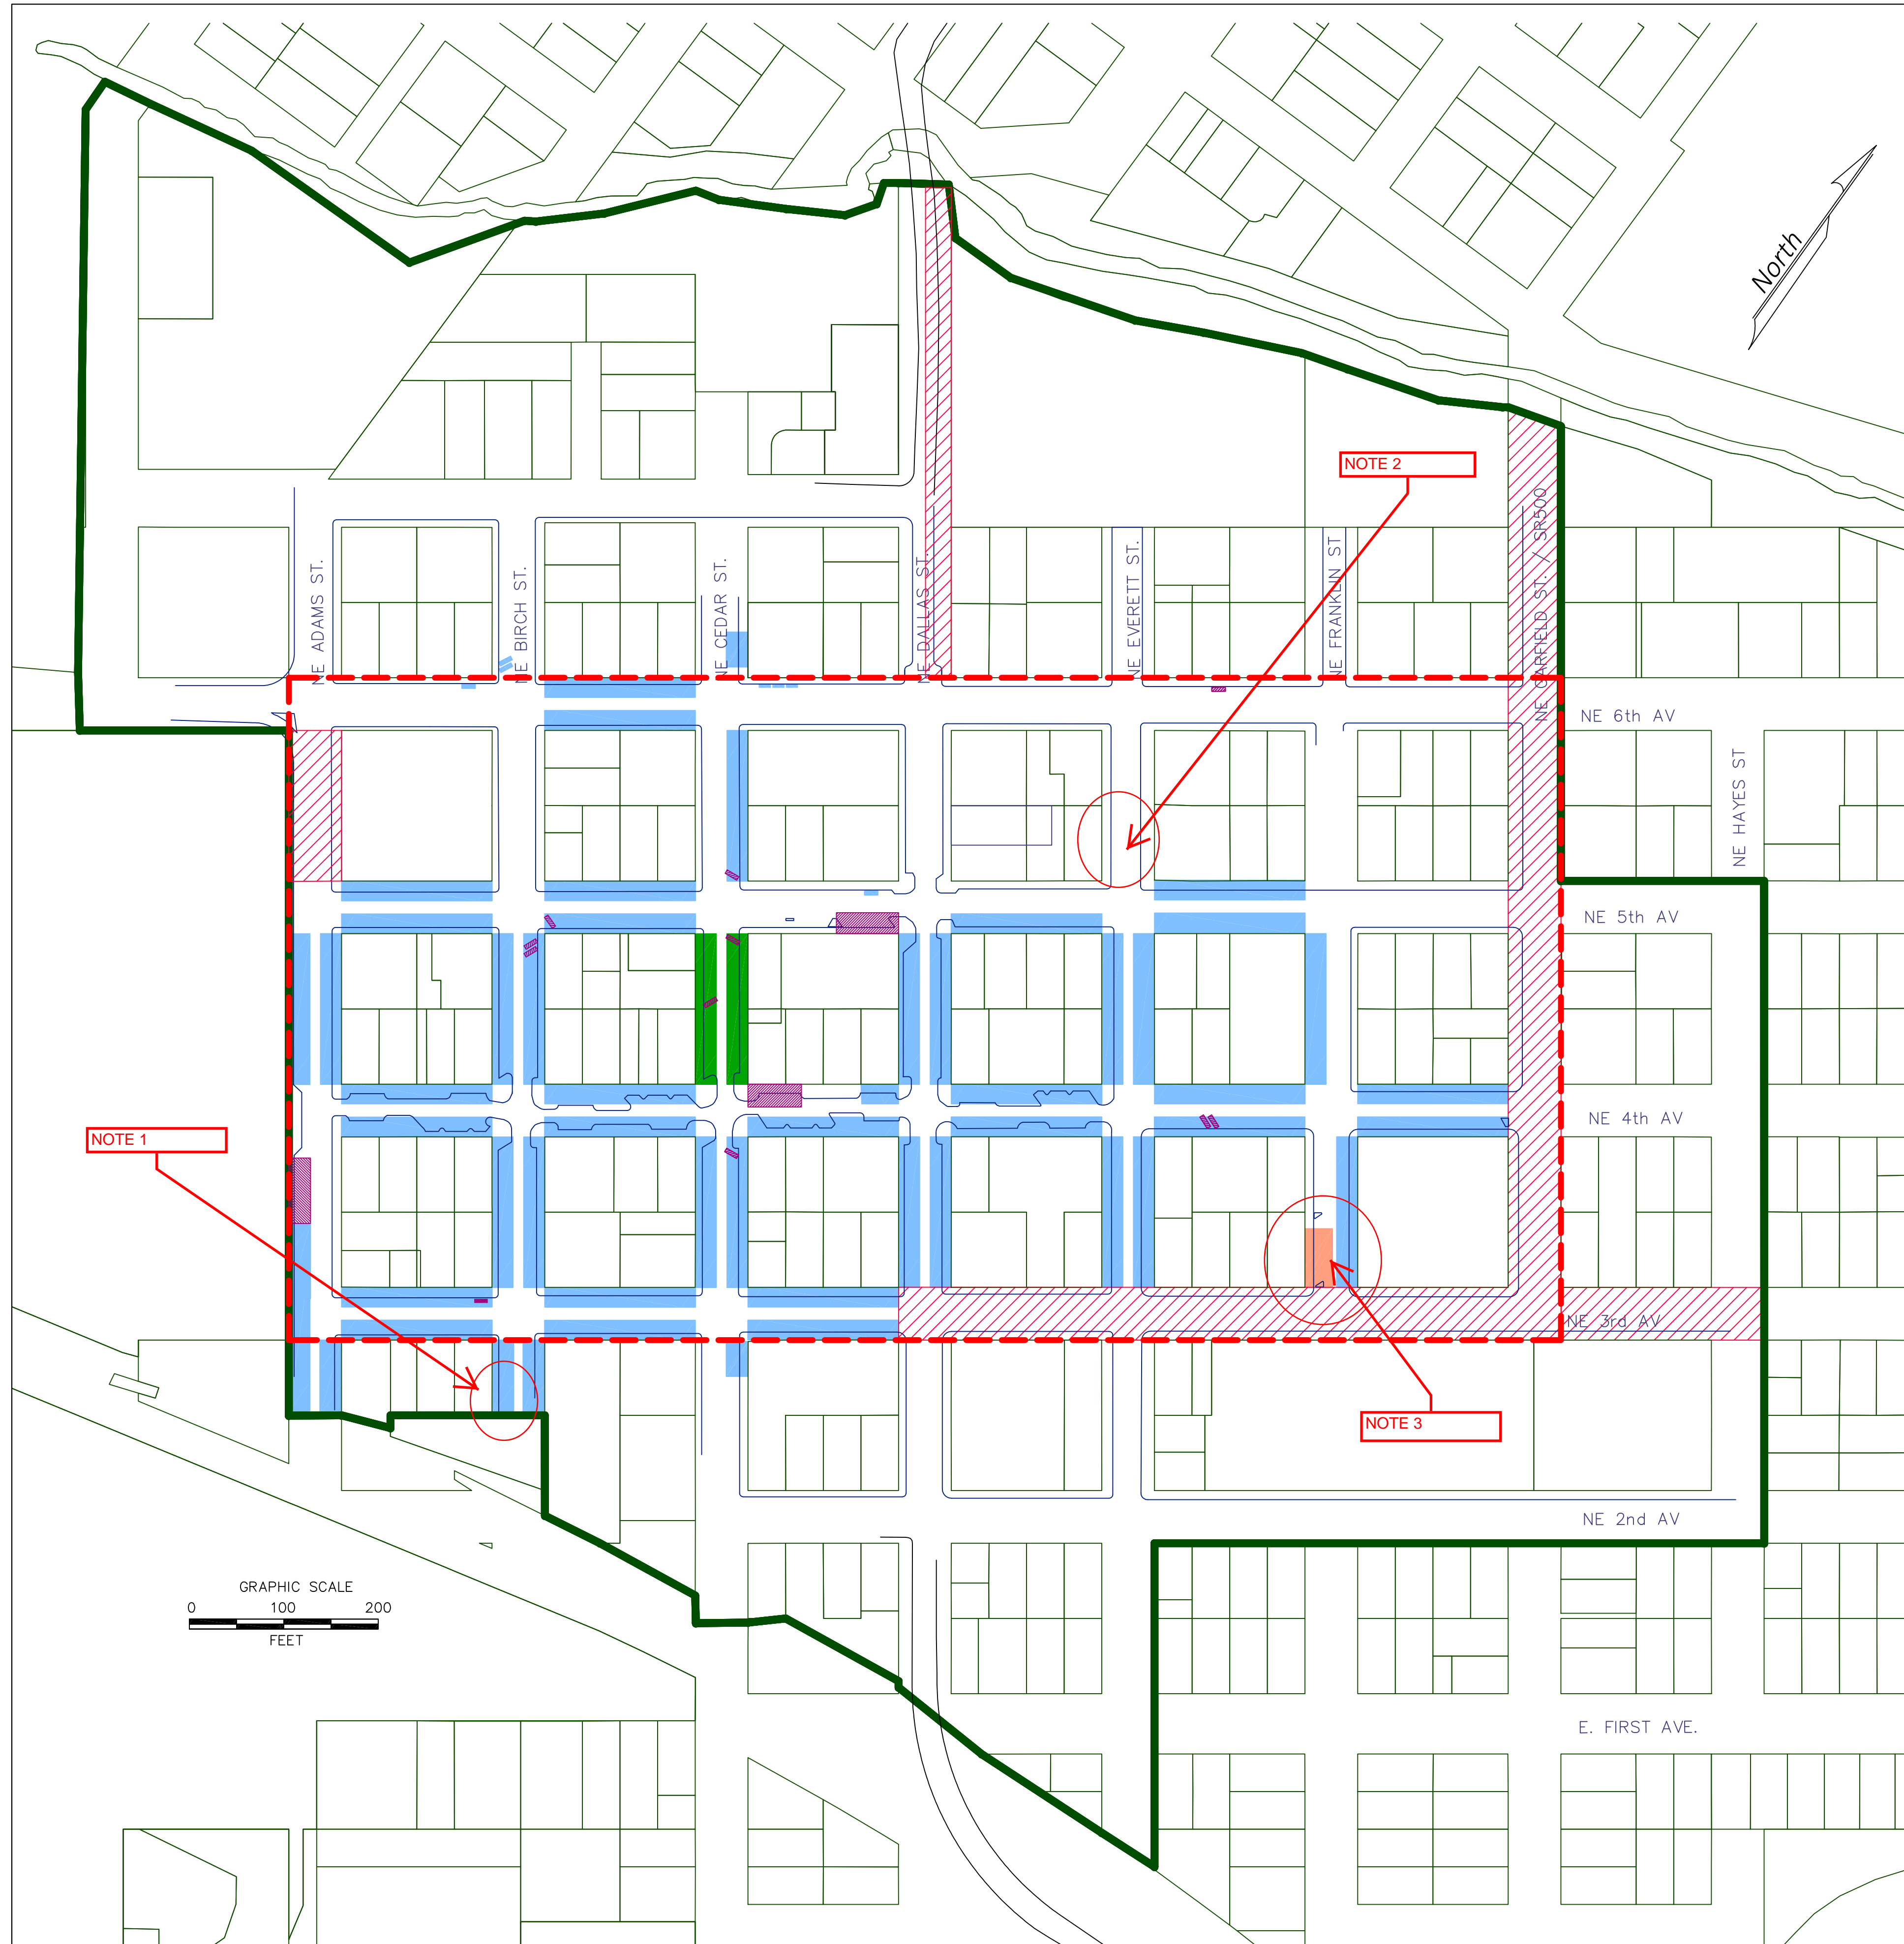

HOW TO READ THIS MAP:

This map describes types of parking allowed in the Downtown Commercial area (outlined in GREEN) within the public right-of-way and is based on three components: Baseline Parking, Parking Zones, and Parking Exceptions. The map is intended to be used as a planning and enforcement tool within the Downtown Commercial area.

**BASELINE PARKING:** The baseline assumption is that everything within the green Downtown Commercial area is 72 hour parking (per CMC 10.08) unless otherwise marked.

**PARKING ZONES:** As indicated in the drawing legend, different parking zones are illustrated by various colors. For example, 2 Hour parking is shown in blue. The various zones shown are not parking space specific, but rather show the side of the street and the portion of the block affected. The reason for using a broad brush approach instead of showing each parking stall is that the City is not able to commit to keeping an accurate and updated inventory of each stall at this time.

**PARKING EXCEPTIONS:** There are two kinds of exceptions that affect this map; those that are shown on the map and those that exist on the street. Those exceptions that are shown on the map typically are single stalls that are different than the overall parking zone for that portion of the street. For example a 10 Minute stall at the end of a 2 Hour parking zone will be shown as an individual parking space. Out on the street, there are areas where no cars can physically park which might be part of a parking zone. Examples of other exceptions not shown on this map might include ADA parking spaces, driveways, loading zones, painted curb lines, and incidental parking restrictions such as CMC 10.20 (General Downtown Core Area parking restrictions.).

**JANUARY 2017 MEETING NOTES:**  
**NOTE 1:** CLARIFICATION OF 2 HOUR PARKING ON SOUTH END OF BIRCH ST.  
**NOTE 2:** REQUEST FOR TWO 2 HOUR PARKING SPACES  
**NOTE 3:** PROPOSED CHANGE OF PARKING ZONE TIME LIMIT
