RE: Camas Code Update

Dear Mayor Higgins, City Council and Mr. Maul:

On behalf of the Building Industry Association (BIA) of Clark County we are writing you to request a delay in implementation of the proposed building code changes tonight. You will be hearing, either in writing or orally, from many members of the development community and your own hearings officer about some of the proposed changes with serious concerns.

Rather than approving these changes in a vacuum we would invite staff to sit down with the commenters to try and address the concerns. Many of the changes involve significant policy changes that could result in significant expense not only for the private sector, but the public sector as well.

On behalf of the BIA we thank you in advance for your careful consideration of the concerns raised by the development community and for delaying action.

Sincerely,

A handwritten signature in black ink, appearing to read "A. Marvin", is written over a horizontal line.

Aaron Marvin, 2017 President
BIA of Clark County
