RE: Draft Camas Urban Tree Program

Please allow this document to be entered into the formal record as professional testimony regarding the Draft Camas Urban Tree Program: Draft Code Revisions for Tree Protection and Permitting Citywide (Program), dated May 9, 2018.

I have reviewed the comments submitted to the City by Mike Odren of Olson Engineering, Inc. on May 15, 2018. I have also performed a cursory review of the City's draft documents. Our office echoes the concerns and issues raised by Mr. Odren in his letter. I will not reiterate Mr. Odren's comments in this letter, but please consider this letter an endorsement of his comments and recommendations.

Sincerely,

A handwritten signature in blue ink, appearing to read 'James Clark'. The signature is fluid and cursive, with a long horizontal stroke extending to the right.

James Clark, LA - Principal
