**INTRODUCTION/PURPOSE/SUMMARY:** The City solicited quotes from three firms to provide cleaning services for aeration basin 3 at the Wastewater Treatment Plant. Basin 3 is one of three aeration basins at the plant. Over the years, bio-solids will amass at the bottom of the basin which require a contractor to remove and haul to a legal disposal site. The City received two quotes, one from Cowlitz Clean Sweep for \$129,032.30 and another from River City Environmental for \$287,775.45. The City has selected Cowlitz Clean Sweep as lowest responsible firm.

**BUDGET IMPACT:** Total cost estimate is \$129,032.30. The 2020 Water/Sewer budget has funds available to complete this work.

**RECOMMENDATION/RECOMMENDED ACTION/ACTION REQUESTED:** Staff recommends awarding the contract to Cowlitz Clean Sweep through approval of the Consent Agenda.
