#### **A. Solid Waste Interlocal Agreement with Clark County**

Details: The City entered into an Interlocal Agreement with Clark County in 2006 regarding the regional management of solid waste, which is in effect through 2016. However, Clark County is currently going through a process to update the Clark County Solid Waste Management Plan and is preparing to submit the plan to the Department of Ecology for approval. As part of the submittal, the County is proposing to include updated interlocal agreements with each city consistent with the new plan. As such, City and County staff have prepared the attached Solid Waste Interlocal Agreement to continue the regional approach to managing solid waste and designating Clark County as the agency responsible for disposal of all solid waste generated within the County to the extent provided for in the updated plan. Consistent with the newly drafted plan, the term of the new agreement is through 2021 with automatic annual extensions unless otherwise terminated. For reference, the Draft Clark County Solid Waste Management Plan may be viewed on Clark County's Environmental Services web page.

#### **C. 2016 Comprehensive Plan Update**

Details: Clark County recently received urban growth boundary expansion requests from the cities of Ridgefield and LaCenter, which is after the agreed upon deadline of July 31, 2014. As a courtesy, the County is allowing other cities within the County another opportunity to seek boundary expansions for the 2016 update. Camas planning staff maintains that no additional boundary expansions are needed for the City of Camas for the 2016 update effort.
