- G. Design Review for 232nd Pump Station (City File Number DR16-11)
Details: The pump station is one of three new pump stations planned within the North Shore Sewer Transmission System. The 232nd Pump Station will be located in Camp Currie, which is within the jurisdiction of Clark County. Through an interlocal agreement, the city is lead agency for all permitting for the North Shore Sewer Transmission System. For new developments in parks, the Camas Municipal Code, Section 18.32.040, states, "The Parks & Recreation Commission shall conduct design review and find that the development is generally consistent with the design standards of CMC Chapter 18.19 Design Review."
Presenter: Sarah Fox, Senior Planner

H. Design Review for Pedestrian Bridge

Details: A new, 150-foot long pedestrian bridge will be constructed over Round Lake, and east of the Everett Street Bridge. The bridge will also include a sanitary sewer force main under the walking surface that will be part of the North Shore Sewer Transmission System. The north side of the bridge will be within the city's Open Space (OS) Park Zone (Parcel #124242-000) and the south side will be on Clark County park property. For new developments in park zones, the Camas Municipal Code, Section 18.32.040, states, "The Parks & Recreation Commission shall conduct design review and find that the development is generally consistent with the design standards of CMC Chapter 18.19 Design Review."

Presenter: Sarah Fox, Senior Planner
