Camas Community Development needs to explain how much the new sewer gravity system will cost, how much in increased taxes to Camas, how much the developers will contribute and what the developers have actually agreed to in writing. Also, where is the location of this fantasy new reservoir, how much that will cost, who will pay for it, how much it will cost. Finally how is a two-lane road going to absorb more than 20,000 new trucks and cars a day if both the 1300 PRD and Green Mountain Estates of 400 homes next door to the PRD approved. Another question is why are 75 serious Conditions of Approval just for the PRD project considered ready for prime time?

Recipient: Camas City Council and Mayor Scott Higgins

Letter: Greetings,

We, the concerned citizens of Camas and Clark County, strongly urge the Camas Planning Commission, the Camas City Council, the Camas Planning Department, and Mayor Scott Higgins to reconsider the incomplete plans for unrestrained growth in the North Urban

To protect their rural, countrified way of life and limit massive noise, traffic, and construction. To keep taxes reasonable for Camas residents.

We, the concerned citizens of Camas and Clark County, strongly urge the Camas Planning Commission, the Camas City Council, the Camas Planning Department, and Mayor Scott Higgins to reconsider the incomplete plans for unrestrained growth in the North Urban Growth Area (NUGA) known as Green Mountain. The potential building of 1700 homes, populating up to 8500 people on less than 400 acres will have a significant and detrimental effect on current residents living within a 5-10 mile radius or more of these projects. In addition, these massive residential projects will impact four entities, the City of Camas, City of Vancouver, rural Clark County and State Highway 500. Massive multi-jurisdictional projects should include stakeholders from all jurisdictions. The Green Mountain Planned Residential Development (PRD), Phase 1, was moved through the first public hearing and initially recommended even though it is encumbered by a full 75 Conditions of Approval. Of these conditions, our greatest concerns include the multi-million dollar conceptual plans to build a new gravity sewer system and/or the temporary building of two above-ground human effluent (wastewater treatment) tanks, locating and building a large reservoir for public water, and finally, the necessary widening of roads to accommodate such a large increase in the population of this area. Unfortunately, the plans for the above infrastructure improvements are either non-existent or are in the preliminary stages of development.

Therefore, we the undersigned citizens of Camas and Clark County would argue that the following advice be agreed to before any development plans go forward:

All project recommendations with more than 20 Conditions of Approval are premature and should be withdrawn from consideration.

"On Demand" or ad hoc infrastructure improvements to projects of this magnitude are bad public policy and require remedial infrastructure improvements.

All Projects that impact more than two jurisdictions require a regional planning process.

Comments

Name	Location	Date	Comment
Mark Martin	Vancouver, WA	2015-06-06	stopping the massive growth on Green Mountain especially without the necessary infrastructure is the smart thing to do. It protects our way of life.
Jeffrey Shafer	Camas, WA	2015-06-07	I care. I want responsible and well growth. I don't want traffic jams and urban sprawl. Quality of life!
Angela Pond, Au.D.	Camas, WA	2015-06-07	I'm signing because I care about responsible growth in the community that ensures infrastructure is in place before the people move in!
Robert Pond	Camas, WA	2015-06-08	The plans for development of Green mountain are ill-considered and the planning commission needs to hold further public hearings on the proposal.
Peter and Dianne Bittenbender	Camas, WA	2015-06-09	There appears to be no consideration as to impact on the community.
Nicholas Buslach	Vancouver, WA	2015-06-09	I'm signing because i think this will be a terrible development for our community. we have none of the required infrastructure to accommodate this. This will cause a massive decline in quality of life for the surrounding residents. it will cause a large increase in traffic, the water table cannot handle that many homes and it will also be a massive spike in number of students in our local education system, which are already nearly overcrowded.
Matthew Hansen	Camas, WA	2015-06-10	It is too high density for this area and poor traffic flow for additional people of that volume.
Peggy Hansen	Vancouver, WA	2015-06-10	I live here!!
dAn Ortiz	Camas, WA	2015-06-10	This kind of unrestrained and wreck less growth is impossible to clean up after!
Robert Tafolla	Camas, WA	2015-06-10	My wife and I moved to the country to get away from the urban sprawl as are many of our neighbors. When is this unbridled irresponsible urban growth going to end? Do we need to move further east, Skamania County to escape this blight? I believe it's time to establish restraints and let the Evergreen State maintain its moniker.
Wendy Baumgartner	Vancouver, WA	2015-06-10	I don't want all these houses in our backyard keep it beautiful here and keep the golf course green
Donna Retchless	Vancouver, WA	2015-06-10	We have lived on the North side of Green Mtn. for 30 years.
david Hill	Camas, WA	2015-06-10	Our quality of life will be severely damaged. The people who elected you have not been heard from.
Michelle Gregory	Portland, OR	2015-06-11	We moved to escape the city. The reason we purchased our home was to have some land so I could have my horse, our young daughter can grow up running and playing and have a rural atmosphere. This needs to be stopped. We need our rural areas, our green spaces and room. Keep the golf course!!!

Name	Location	Date	Comment
Michelle Gregory	Portland, OR	2015-06-11	<p>I moved to Camas from SE Portland in September of 2013. The reason I did so was to GET AWAY from the city, the crowding, the graffiti and crime. We wanted to find a place with some land so I could have my horse, so our young daughter can run and play. We picked Camas for the schools and we love the city. I do not want this development. If I wanted to live in an area surrounded by homes and malls, I would have stayed in the city. The whole point was to find a wonderful place for us to raise our daughter who just turned 6 years old. She will be going to Lacamas Heights school in the fall.</p> <p>Having a rural environment, where we can have low traffic, where I can ride my horse, and have room to run and play all took into account where we would purchase our home.</p> <p>The planning infrastructure for a project of this size has not been done. The number of homes and apartments proposed adds a huge burden onto the roads, the schools, the land. This is not a small subdivision of 200 homes. This development will have negative impacts and should not be built. We NEED rural space. We NEED room. There are other places to put new homes. Places where they would be on a sewer system, not above ground human waste tanks.</p> <p>This is a bad idea all the way around.</p>
John Breuer	Vancouver, WA	2015-06-11	The Green Mt PRD negatively impacts adjacent jurisdictions without any mitigation. This makes a farce of the GMA, is unethical, and irresponsible.
Brian Campbell	Camas, WA	2015-06-11	This matters...
Karen McGregor	Clovis, CA	2015-06-11	I don't believe that not enough is being done to promote urban in-fill projects. Developers find large relatively cheap acreage and land owners willing to make a buck. That and a "pro business" bunch of "business bought and paid for" politicians is the perfect storm for sprawl. Protecting our natural resources. Open spaces and wildlife. Holding these assets in trust for generations to follow should be the priority, not the quick buck
Joe McGill	Vancouver, WA	2015-06-12	Overdevelopment if natural areas especially with incomplete plans and unknown environmental impacts does not equate to responsible development.
Diane Johnston	Vancouver, WA	2015-06-12	We don't need more construction in this area - there has already been a lot, plenty of shops and homes already that the population can support.
Debra Amundson	Brush Prairie, WA	2015-06-12	This is a beautiful, quiet rural area. What a shame to let it become crowded with traffic, massive housing and retail.
Tracey Kasten Heil	Camas, WA	2015-06-12	<p>We have lived near the proposed development area for almost 15 years. Only notifying people within 300 ft of the affected area is unconscionable in a rural area where someone's driveway can be 300 ft long.</p> <p>To plan a development without serious infrastructure improvements is something that will NOT be tolerated. Look at Everett Rd between Lake Rd and Camas High School on any given weekday around 7:30 a.m and 2:30 pm and the traffic jam is worthy of Hwy 26 in Portland.</p> <p>Adding a lane in either direction between those two streets would have greatly mitigated the traffic impacts we experience daily. Even adding a right turn lane from Everett onto Lake Rd would have been helpful and not as costly. But to add more development and more traffic without being responsible for the impacts is not something we will tolerate in our neighborhood.</p>
Kristine Fowler	Camas, WA	2015-06-12	I live directly across from this. It will cause so much congestion

Name	Location	Date	Comment
James Wake	Camas, WA	2015-06-12	<p>I am a property owner in the area, and I am apposed to the proposed development.</p> <p>As a property owner I was not notified by the developer of the proposed development.</p> <p>I would suspect that if property owners, living in the area were contacted and asked if they were notified, one would receive a similar response.</p> <p>The solicitation, by the developers, to the nearby property owners should be investigated for compliance.</p>
Gloria Heggy	Athens, IL	2015-06-12	I lived in Washington State 30 years ago in Brush Prairie. I visited the area last year and was sickened by what I saw. Urban sprawl has destroyed so much of the beauty of this area. Think about that and what could happen in Camas if you're beautiful countryside is not protected.
Ryan Garrick	Camas, WA	2015-06-12	I am directly impacted by this. My wife rides her horses on Green Mountain and we live about 1 mile east of the proposed building site. There needs to be limits and conditions set and the planning commission should be more transparent so the neighbors within the 5-10 miles direct impact area can have a voice.
Barbara Wegner	Camas, WA	2015-06-12	Too much growth the roads and schools can not accommodate. We need to build roads and school before we build housing.
Lynnelle HAYS	La Center, WA	2015-06-13	Urban Growth of this kind in any area is a shame. everyone needs Green space and room. If we wanted to live in LA we would and if you keep it up there will not be anything Beautiful about this part of washington or any other. Put a Full sign out in our state like the Hotels do!
Cooki Welsh-McClatchie	Camas, WA	2015-06-13	<p>We moved her in 2002, we chose this area because it was rural. We lived in a city before, but wanted space and some quiet. When we moved her getting onto the main road (Dresser) was easy, not a lot of traffic, we have watched that change due to the growth by Camas HS and the new elementary school.</p> <p>With this new development, it will be a nightmare. This area is not equipped for that much growth. People that live here, live here for the peace and quite and the country life, if we wanted urban sprawl we all would have moved into a area where there were houses on top of houses. We fell in love with Camas for being small and lots of open areas, lets keep it that way. NO on the development of Green Mountain.</p>
Jeaniene Jones	Ridgefield, WA	2015-06-13	I have friends living near Green Mountain and still ride my horse on the Green Mountain trails.
Russell Wegner	Camas, WA	2015-06-13	I am concerned that development is too large and too dense for the infrastructure, road impacts and cost requirements. The requirement for schools is also a concern. 192nd and NE 13th is approaching congestion level already. Improving existing housing seems to make more sense, than building new and creating sprawl.
Riley Moss	Vancouver, WA	2015-06-13	this is a bad idea work on infrastructure first. Tons of houses in the area rely on well water as a source of water this will have a great impact on that resource
Darrell Kidd	Vancouver, WA	2015-06-13	Road conditions are bad the way they are.
Susie Hassel	Camas, WA	2015-06-13	<p>I am signing this because I am concerned with the management of growth in our community. While I understand that growth is going to happen, it can happen in a more responsible way that protects the environment and serves the needs of the community in a more responsible manner. Please listen to the people in your community who came to Camas for its beauty. Builders do not necessarily have the best interests of our residents in mind when they plan these developments.</p>

Name	Location	Date	Comment
Jennifer Brandal	Washougal, WA	2015-06-13	I live in Washougal, but my kids go to Camas schools. I have lived here for 11 years and I work in Portland. I chose to live out here for the beauty of the rural area and to get away from all the people and traffic of the city. I do NOT want to see Camas turn into an urban jungle.
Jen barnes	Camas, WA	2015-06-13	if you keep building like crazy we will for sure need to build a new hs and that will divide this tight knit community. The growth is going to change camas more and more. And keep it beautiful and green
Patty Simkins	Camas, WA	2015-06-13	I do NOT want to see Green Mountain taken over by houses or a mall!!!! Preserve our beautiful area!!!
Stephanie Walker	Camas, WA	2015-06-13	I love Camas.
Christine Sink	Camas, WA	2015-06-13	This is criminal.
Thomas Martin	Vancouver, WA	2015-06-13	I live here!
Lauren murphy	Camas, WA	2015-06-13	Camas should have open space because that's what makes it beautiful! Let's not turn it into a sea of houses.
Gerry Oppliger	Camas, WA	2015-06-13	I love my town..the wAy it is.
Jennie Cole	Camas, WA	2015-06-13	I'm afraid that our schools and infrastructure cannot handle this many new housing projects.
Erin Noel Tierney	Camas, WA	2015-06-13	i do not want a new home developement put in near my neighborhood
Jeremy Pfaff	Camas, WA	2015-06-13	I don't want to devalue the current homes, over populate the area and schools. I also believe in keeping as much natural habit for the animals and the people as possible.
Zaida Ramos	Camas, PA	2015-06-14	It is of great importance that we are vigilant about preserving our green space. We need to elect city officials that share the community concerns.
Michelle Myers	Vancouver, WA	2015-06-14	I live on Green Mtn
Thomas Layne	Camas, WA	2015-06-14	Grow too quickly and it will compromise a great community.
Patrick asbury	Camas, WA	2015-06-14	school and city funding and population consideration
Elizabeth Lyman	Camas, WA	2015-06-14	I love Camas and am very concerned with all of the new and potential growth in our community!
Lisa cooper	Vancouver, WA	2015-06-14	its one of the most peaceful courses in Clark County
Emily Roberts	Camas, WA	2015-06-14	My family and I just moved to the area from Denver Colorado . We chose Camas because of its small community, rural life, beautiful green spaces and lack of big city mass development. We want our child to grow up appreciating the community and enjoying the lifestyle that Camas offered when we moved here. Get away from the traffic, crime and problems that plague big cities.
Bethany Burks	Vancouver, WA	2015-06-14	Part of why we love the NW is for all the open green space and trees. We love nature. Putting in more crowded neighborhoods is both taking away why we choose to live here and is harder on the environment.
Elizabeth Fagen	Camas, WA	2015-06-15	Current housing developments in Camas built since the mid 1990's lack appropriate sustainable planning e.g. roads, parking for vehicles in and around homes on the street, adequate road development and emergency service access. Piling homes on top of homes for taxr revenue that does not support sustainable water, sewer, street parking, access roads, police services in an area currently underserved by Clark County Sherriff, additional High School/middle school and updating/widening of SR 500 is ridiculous!

Name	Location	Date	Comment
Sheri Nordstrom	camas, WA	2015-06-15	This increase in building everywhere in Camas effects all of the community and needs to be reconsidered. Did anyone consider the impact of all of the increased housing on our schools? The high school is already over overpopulated. Camas prides itself in quality education - but it already had one off the highest student to teacher ratios in the state. Where do you plan to put them all and who is supposed to foot the bill?
sean creech	Camas, WA	2015-06-15	Favorite place to golf. Also a preservation of nature. Adding housing developments would also increase traffic. Some people like me enjoy the small town living.
Eric Tierney	Hillsboro, OR	2015-06-15	when is the city going to stop cutting up the land with little recourse This is my home town that your cutting up for your gain Mr. Higgins and Liz Pike
Blake Bergeron	Camas, WA	2015-06-15	I reside in Camas for many reasons but some of the main reasons included the abundance of trees and wildlife in the city. Now I'm just 5 years, I have seen 5 be hosting developments go into construction. The appeal of the 'small town feel' of our city is in jeopardy. There needs to be a hard stop at some point!
Seth Prince	Washougal, WA	2015-06-15	I want rural land to stay rural land. Open space, timber, and wild lands are needed
Kelley Devaney	Camas, WA	2015-06-15	I drive to work 3 to 4 days a week on the already crowded road of this proposed development. Can't even imagine the traffic problems this will bring!
Danielle Douglass	Battle Ground, WA	2015-06-15	This is my home town. I love saying I'm from a small town, but that won't be possible if y'all keep building in it. Camas is known for its trees and wildlife. Stop doing this!
Jessica Hill	Washougal, WA	2015-06-16	I drive through this area to get to shopping for almost all of my day-to-day errands. A project of this scale with this large of an impact on traffic flow would be disastrous. We don't want downtown-type traffic and noise out here!
Rachael Bonazelli	Camas, WA	2015-06-16	I work on a farm in rural Camas, and the animals would suffer from the noise of construction, busier roads, and more housing. There are plenty of farmers who would agree with me that this would be harmful to our way of life.
Bryan Casey	Camas, WA	2015-06-16	I'm signing because I'm tired of Camas being overruled by a bunch of transplant hipsters that do nothing but over-populate our city, drive up the property taxes and home values and want to live here because it's the "cool" place to live. As a home owner you want your home to accrue value but not at the rate it is going. When I originally moved to camas my property taxes were \$1100 a year. Now they are over \$5,000 a year and I haven't done anything extravagant to my house. Stick to Portland or the west side. Camas is being bombarded by demand and will eventually look like every other suburb which wasn't the original allure of the Camas area.
Kimberly Betschart	Washougal, WA	2015-06-16	The more we build in great beautiful places the less we will have to show in years to come. People come here because of how lovely it is. Building homes like they are planning should not even be an option. I love where I live (PNW) and constant building like this is going to ruin the beautiful place a lot of people proudly call home.
McKenzie Espinosa	Camas, WA	2015-06-16	I'm signing because I have lived in this city for 18 1/2 years and I have seen it grow and the pollution worsen due to that growth. It's a big fear of mine it will only get worse and effect the citizens that have lived and relished here their entire lives. Please consider this petition as a cry for help from all the natives of Camas Washigton.
matt oneill	Santa Clara, CA	2015-06-16	i love the forest

Name	Location	Date	Comment
sierra hatfield	CAMAS, WA	2015-06-16	I am signing this to protect the city my son is growing up in. We have always been known for our rural areas. As well as I have noticed our school systems can't handle the sheer number of students we already have. Do we really need this?
John Bacon	Camas, WA	2015-06-16	I enjoy the northwest because of the integrated trees and suburbs. It is a very special place because the greenery can be intermingled with the houses. For example, the nice green trees on prune hill and the green belts that surround. Please, don't let camas keep biggering. Camas high school for example camas highschool has already reached a maximum capacity. More homes will only mean a more crowded city. I would hate to see the special town that I grew up in lose my hope and would love to see it continue to flourish. The mix between suburbs and green vegetation is really uncommon in this day and age. Thank you.
Leslie Chasse	Camas, WA	2015-06-16	Slow the growth. Tell the developers to cool their over eager greedy jets.
Stephanie Spencer	Vancouver, WA	2015-06-16	The urban sprawl that has happened in the 17 years since we moved to east Vancouver has been disheartening. I hope the city planners and other authorities will take the time to consider quality of life issues beyond economic advantages when approving new development in rural areas.
Clayton Daniel	Camas, WA	2015-06-16	This would effect my daily commute along with property values of my house, and land.
Samuel Odia	Camas, WA	2015-06-16	Living in camas and already seeing a multitude of houses for sales and then reading about how they wanted to add more really makes no sense. Try focusing on the fact that Camas High School has been overpopulated for some time now.
jordan rule	Camas, WA	2015-06-16	houses r gay
Tina Currie	Camas, WA	2015-06-16	Green mountain us literally my front yard! I just moved here 6 mo ago. Probably wouldn't have bought this place had we known the possible/probable future!
