D. Community Development Miscellaneous and Updates

Details: This is a placeholder for miscellaneous or emergent items.

Presenter: Phil Bourquin, Community Development Director

Bourquin informed Council about an upcoming Planning Commission hearing on Tuesday, June 20, 2017, at 7:00 p.m., regarding amendments to Camas Municipal Code (CMC), Title 18 –Zoning.

Bourquin informed Council that building permits are being accepted and processed for the Green Mountain Planned Residential Development (PRD), Phase I.

Bourquin informed Council that the Green Mountain Park Development Agreement (DA) will be on the June 19, 2017 Workshop Agenda with a public hearing anticipated on July 3, 2017.

- E. Interlocal Agreement for Street/Stormwater Debris Processing and Disposal  
Details: To meet requirements of its National Pollutant Discharge Elimination system (NPDES) Municipal Stormwater Permit, the City has participated for many years in regional recycling efforts with Clark County (County) and other municipalities in the County operating under interlocal agreements for the decant, processing and disposal of debris and waste generated from street sweeping and catch basin cleaning activities. The previous interlocal agreement, which expired December 31, 2015, generally used the number of loads taken to the decant facility to allocate costs to each jurisdiction. In prior years, the City has typically spent less than \$10,000 for stormwater debris disposal costs and processing fees, which is paid for out of the Stormwater Utility Fund. Over the past several months, a steering committee consisting of all regional partners have worked to develop a new interlocal agreement and rate structure. The new proposed rate structure is based on per ton disposal costs that are determined by actual processing and final disposal costs incurred. All trucks entering and leaving the decant facility are weighed in at newly installed truck scales. This rate structure will be evaluated annually and adjusted as needed for accurate operating costs. With new requirements in the City's most recently issued NPDES Permit and City growth, staff anticipates higher frequencies of street sweeping and catch basing cleaning activities generating larger volumes of debris resulting in additional expenses versus prior years.  
Presenter: Denis Ryan, Public Works Supervisor

This item will be placed on the June 19, 2017 Consent Agenda for Council's consideration.

- F. Street Project Funding Opportunities  
Details: Staff sought the views of Council about potential grant application submittals for transportation projects. Staff has considered the NE Lake Road and NE Everett Street intersection to be one of the highest priority projects not currently funded for design or construction. The next round of Federal Highway Administration (FHWA) grant applications administered through the Regional Transportation Council is in July. The Washington State Transportation Improvement Board (TIB) grant application deadline is in August. Staff asked for Council's thoughts about applications for the NE Lake Road and NE Everett Street intersection. There was a brief presentation at the Council Workshop.  
Presenter: James Carothers, Engineering Manager and Steve Wall, Public Works Director
