Hi Sarah,

That's correct - the numbers that you can't find are the old numbers before the BLA. There should be four parcels now that make up the subdivision area - the numbers you have highlighted are correct.

Melanie,

As I am working through the application and drawings and verifying information, I cannot find a few of the parcels which were listed on the general application form. I found the four that are highlighted below, however, I cannot find the parcels that begin with "127162". Could you point me to those parcels on your existing conditions map or other drawings? I think that they are inactive numbers based on the boundary line adjustments that have occurred? Is that accurate?

Parcel #	Acres
127174-000	13.53
127162-007	6.58
127175-000	6.58
127144-000	6.06
127162-003	?
127162-009	?
127162-000	?

Hi Sarah,

I have obtained a digital copy of the drainage report. I have all of the docs in a Dropbox folder. I will send you a folder invite, if that will work.

Melanie,

Could you send me the revised stormwater report? It was not on the flash drive that you sent, so I don't have it electronically. Also, it would appear that none of the files that were on the flash drive will open, except appendix C. They appear to be corrupted. Perhaps you could share these revised documents with me through an FTP site?

Thanks,

Sarah
