**Subject: Absentee For June 18, 2018 Proposed Firework Ordinance
Hearing For The City Of Camas**

**I, Christopher J Kralik of 631 NW 18th Loop is in favor of
abolishing the use of aerial exploding fireworks within the
city limits of Camas, WA.**

The factors include:

- 1) The widespread threat of fires that the CWFD would not be
to handle. Global warming is creating a more intense fire
scenario.**
- 2) The noise and the debris through out our neighborhoods.**
- 3) Some residents do not obey the existing law. Fireworks
continue through out the night after the cut off time.**
- 4) Animals are affected by the noise.**
- 5) People from outside the city limits are coming here to set off
their fireworks, due to the ban from other cities like
Vancouver and Washougal.**

Thank you!

Christopher J Kralik
