INTRODUCTION/PURPOSE/SUMMARY: The motor control system at Well 6 is obsolete and was identified in last year's condition assessment as in need of immediate replacement. This project was included in the 2019-2020 budget. S&B Inc. has submitted a scope of services to provide the equipment and personnel to replace the aging system. NOTE: This does not include costs for electrical work to de-energize the old system and re-energize the new control panels installed by S&B Inc.

BUDGET IMPACT: Total cost of \$76,866.85. The Water/Sewer funds were budgeted to complete this work in 2019.

RECOMMENDATION/RECOMMENDED ACTION/ACTION REQUESTED: This item is for Council information only. Staff recommends this item be placed on the March 18, 2019 Consent Agenda for Council's consideration.
