Good morning and thank you so much for the info. Good luck with getting it all sorted out!

Cheers,
Carrie

Hello Carrie –

Thanks for your inquiry about our sewer pump station project.

You make a good point about the Ivy in the area. It's a never-ending battle isn't it? We are still talking about possible mitigation measures for the project, and we've had others suggest some potential fish passage improvements in the area. I'll make sure that we consider this as a potential option. I expect to get a draft of the Tree Study for the project any day now, which will probably address the extent of the existing ivy problem.

You're welcome to contact me if you have any additional questions about the project.

Thanks Much, Jim

Hi Carrie,

Thank you for contacting the City of Camas. Your name and address has been added to the list to receive future mailings on this project.

Lauren Hollenbeck, Senior Planner has been copied on this email. She is the lead planner for this proposal and will be able to answer your question.

Thank you,

Jan Coppola

Hi! Please add me to the list of people who would like to continue to have updates to this project.

My name is Carrie Pattison and my address is 1518 NE 3rd Place.

I guess my only question would be that I hope the city is considering addressing the ivy that is on the trees that will remain in the area that they're going to be working on.

Thanks so much!!

Carrie
