#### INTRODUCTION:

The cross-boundary service area agreement is an Interlocal agreement supporting park project partnerships along common boundaries with the City of Vancouver and Clark County for the mutual benefit of residents, regardless of jurisdiction.

If executed, all parties would commit to consider establishing joint overlay areas through an addendum of their applicable governing documents. Similarly, all parties would consider amendments to their respective capital facilities plans, as needed, to identify potential park projects within the Park Overlay Service Areas. Should the parties elect to jointly fund acquisition, development and/or maintenance and operation efforts, the parties may execute a more detailed and binding project specific agreement.

The cross boundary service area agreement has been reviewed by the City attorney, discussed with city staff, and supported by the Parks and Recreation Commission.

**RECOMMENDED ACTION:** This item is for Council information only. Staff recommends this item be placed on the September 3, 2019 Agenda for Council's consideration.
