To Whom It May Concern:

Given that the above-referenced project is within the Cowlitz Tribe's area of concern, the Cultural Resources Program (CRP) of the Cowlitz Indian Tribe would like to state its interest.

The Cowlitz Indian Tribe recommends an Inadvertent Discovery Plan be attached to the permit; we have included language for your consideration.

This determination is based on all currently available knowledge, and is subject to revision should new information arise. Please contact us with any questions or concerns you may have. We look forward to working with you on this undertaking.

Thank you for your time and attention.

Ms. Hollenbeck,

Please send me the Cultural Resource Reports associated with this project.

Thank you.

James Gordon

Accordingly, this e-mail, in whole or in part may be subject to disclosure pursuant to RCW 42.56, regardless of any claim of confidentiality or privilege asserted by an external party.

COWLITZ INDIAN TRIBE
INADVERTENT DISCOVERY LANGUAGE

In the event any archaeological or historic materials are encountered during project activity, work in the immediate area (initially allowing for a 100' buffer; this number may vary by circumstance) must stop and the following actions taken:

1. Implement reasonable measures to protect the discovery site, including any appropriate stabilization or covering; and
2. Take reasonable steps to ensure the confidentiality of the discovery site; and,
3. Take reasonable steps to restrict access to the site of discovery.

The project proponent will notify the concerned Tribes and all appropriate county, state, and federal agencies, including the Department of Archaeology and Historic Preservation. The agencies and Tribe(s) will discuss possible measures to remove or avoid cultural material, and will reach an agreement with the project proponent regarding actions to be taken and disposition of material.

If human remains are uncovered, appropriate law enforcement agencies shall be notified first, and the above steps followed. If the remains are determined to be Native, consultation with the affected Tribes will take place in order to mitigate the final disposition of said remains.

See the Revised Code of Washington, Chapter 27.53, "Archaeological Sites and Resources," for applicable state laws and statutes. See also Washington State Executive Order 05-05, "Archaeological and Cultural Resources." Additional state and federal law(s) may also apply.

It is strongly encouraged copies of inadvertent discovery language/plan are retained on-site while project activity is underway.

Mr. Gordon/Mr. Reynolds:

In your comments related to City of Camas SEPA 19-21 below, you request that an IDP be prepared specific to this project. With this in mind, I have attached the IDP prepared by our archaeological consultant, AINW, for your use and review. Thank you for submitting your comments related to this important project.

Our current schedule for the project is to solicit bids from the contracting community late next month in February and to formally award the project in March, with construction to start in late March or early April. I expect that you will be cc'd on the notice of construction report that will be submitted to DAHP once we have confirmation from the selected contractor on their schedule.

Please feel free to contact me if I can provide any additional information.

Thanks Much, Jim
