File #:	REP 15-494	Version:	1	Name:	Sewer Main Consultant Contract Supplement
Type:	Informational Report	Status:		Status:	Meeting Item
File created:	10/20/2015	In control:		In control:	CITY COUNCIL WORKSHOP
On agenda:	10/26/2015	Final action:			
Title:	<p>Sewer Transmission Main Consultant Contract Supplement Details: The STEP sewer transmission main route bisects areas of archaeological significance. Efforts were made during project design to keep these areas of potential archaeological finds to a minimum. There are two areas that require additional archaeological investigation and artifact curation. The cost of this additional consultant work is \$175,646. This additional cost is covered by the Public Works Trust Fund loan for this project. Presenter: James Carothers, Engineering Manager</p>
