Type:	Informational Report	Status:		Status:	Meeting Item
File created:	6/8/2016	In control:		In control:	CITY COUNCIL REGULAR
On agenda:	6/20/2016	Final action:		Final action:	
Title:	<p>North Shore Sewer Memorandum of Understanding (MOU) with Clark County Details: City and County staff, with respective legal council, have prepared a Memorandum of Understanding (MOU) for permitting and licensing of the North Shore Sewer Transmission System. The MOU allows the City to be the lead agency for environmental and land use permitting of the project. The project crosses County property at two locations, Camp Currie and Lacamas Lake Park. This will reduce permitting efforts by allowing the City to permit the project across County property and eliminate the need to apply for County permits. The City will follow all County regulatory requirements for the project on County property. The MOU also gives the City a license to construct and maintain the North Shore Sewer Transmission System on County property. Presenter: Sam Adams, Utilities Manager</p>
