Socrata Open Performance Demonstration

Details: As part of the City's new Strategic Plan, one of the initiatives included performance measurements. The City has successfully worked with Socrata to develop the Open Budget and Open Spending software, which provides financial transparency to citizens. Socrata also provides Open Performance, which will allow the City to track goals and initiatives with performance measurements that can be linked back to Open Budget to enhance the financial story of the City. Staff provided a preview of the software and demonstrated what another city has accomplished with the program.
