Water System Emergency Intertie Interlocal Agreement with City of Vancouver

Details: The Columbia Palisades Master Plan is located in the City of Vancouver adjacent to the Camas City Limits northwest of the 192nd Avenue and Brady Road intersection and has been in discussions for many years. The City of Vancouver ultimately approved the Columbia Palisades Master Plan in 2016, and the developer is currently designing the first phases of the project to move towards construction. Through the years, the developer and the City of Vancouver approached City of Camas staff in regards to supplying water to the upper elevations of the project and the possibility of constructing a water system intertie between the Vancouver system and the Camas system that could be used to provide water service to either City in the event of an emergency. Staff provided a summary of the attached Emergency Intertie Interlocal Agreement at the September 5, 2017 Council Workshop, which provides the framework for how service through the intertie could be requested by either party. The physical infrastructure associated with the intertie will be installed and paid for by the developer of the Columbia Palisades Project. Additionally, there is a separate interlocal agreement that provides for overall service to the project by the City of Camas.

Presenter: Steve Wall, Public Works Director

Recommended Action: Staff recommends the Council approve the interlocal agreement and authorize the Mayor to sign it on behalf of the City.
