### Intergovernmental Agreement with Clark Public Utilities Regarding Transfer of a Satellite Water System

Details: Clark Public Utilities (CPU) currently owns and operates a satellite water system serving the 12-lot Mountain Glen Subdivision located at the east side of NE 199th Avenue and immediately adjacent to, but outside the northerly Camas city limits. Even though the satellite water system is located outside the city limits, it is within the City of Camas Water Service Boundary. Additionally, the CPU well that serves the existing satellite system is located on property being developed as part of the Green Mountain Planned Residential Development (PRD) within the city limits. Staff has coordinated with the developer of the Green Mountain PRD and CPU regarding connection of the Mountain Glen water system to the City of Camas water system, decommissioning of the existing well, and transfer of the satellite water system customers to the City of Camas. The attached Intergovernmental Agreement has been prepared to legally transfer the customers and the system obligations from CPU to the City. Staff reviewed the draft agreement with Council and provided additional background information relative to the proposed transfer.

Presenter: Steve Wall, Public Works Director

Recommended Action: This item will be placed on a future agenda for Council's consideration.
