Camas Urban Tree Program

Details: The City was awarded a grant from the State of Washington Department of Natural Resources (DNR) to develop an Urban Tree Program. The work for the project included current zoning diagnosis; a public survey; outreach during Camas Days; working with an ad hoc committee of citizens; updating the Design Standards Manual with street tree species; and creating outreach materials that will increase the public's knowledge of tree care and the new ordinance. Staff conducted workshops with the Planning Commission on October 17, December 12, and March 20. Workshops with City Council were held on November 6, and December 4. At a public hearing on June 19, the Planning Commission forwarded a recommendation of approval to the City Council. A staff report with the proposed program, exhibits and public comments will be included with the agenda for the public hearing.

Presenter: Sarah Fox, Senior Planner

Recommended Action: Staff recommends Council set a date for a public hearing to be held on July 16, 2018.
